STS Inks is providing this information as a service to our customers. The information provided herein is based on data we believe to be reliable, but is not intended to guarantee that all end products created or manufactured with these materials will comply with CPSIA. This information is provided without any warranty, expressed or implied, regarding its correctness. Accordingly, STS Inks assumes no liability for customers' compliance with the CPSIA. It is our understanding that under CPSIA, the parties responsible for the certification are the manufacturers of the finished products and not the materials or component suppliers like STS Inks. Therefore we strongly recommend third party verification of their final product's material content and legal counsel in order to comply and completely with the CPSIA.

*This statement should not be quoted, reproduced or otherwise referred to or published in any other medium, nor should it be disclosed to or filed with any government agency or other person without STS Inks' prior written consent.
